

My Curriculum

The **My Curriculum** section of **NYLearns** allows you to save and customize curriculum maps, both those created by your district and model maps posted by other districts and **NYLearns**. **My Curriculum** provides a tool to outline the scope and sequence of your curriculum, to align your curriculum to NYS Learning Standards, and to make the maps available to district personnel online.

1. To access **My Curriculum**, click **My NYLearns** and then click **My Curriculum**.

The screenshot displays the NYLearns user interface. At the top left is the NYLearns logo with the text "Curriculum Management and Standards-based System". To the right, a user profile for "Hello, Joe!" is shown with a "Sign out" link and a search bar. Below this is a navigation menu with the following items: Home, Standards, Educational Resources, Assessment, Community, My NYLearns (highlighted with a red box), and Support. Below the navigation menu is a grid of four main sections: "My Profile" (Manage your account information), "My ePortfolio" (Add and edit folders, upload digital files, bookmark resources, and organize multimedia), "My Website" (Build your own professional classroom website and empower parents and students with access to important information), and "My Curriculum" (View, navigate, customize, and maintain various curriculum maps, including those that reflect the Common Core). The "My Curriculum" section is highlighted with a red border.
